

# INTRODUCTION TO THE UK WATER INDUSTRY SUPPLY CHAIN MODULES

# Institute of Water

## 2020 Course dates – Please select from the dates below:

- ☐ 31 March & 1 April      ☐ 23 & 24 June  
☐ 6 & 7 October

### Course Overview:

The water industry has gone through some significant changes in the last thirty years. Efficiency, legislation and technology will continue to drive change for the foreseeable future. There is often not enough time to fully explore the impacts of this changing environment. The looming skills shortages and changes to water markets have focussed the need for investment in skills across the water sector.

### During the two-day course delegates will:

- Learn about all the functions involved in the delivery of a water service
- Gain a comprehensive overview of the UK water industry
- Identify the key drivers and economic value chain in the water industry
- Expand their existing knowledge of the water industry
- Explore issues affecting the future of water service provision in the UK and beyond
- Examine the issues facing the supply chain in a regulated business

### Course content includes:

- History of Water
- Regulation and Legislation
- Water Cycle
- Water Resources and Planning
- Water Quality and Treatment
- The Water Network
- Leakage
- Sewage, Sewerage and Pumping Station
- Sewage Treatment
- Sludge Disposal

### Course Duration:

- 15 guided learning hours i.e. two days
- Type of Certificate: Attendance
- Accreditations: Institute of Water
- Min/Max Persons on Course: 6/12

**Cancellations within 4 weeks of the course will incur an administration charge of 50% and 100% within 2 weeks. Substitutions can be made at any time.**

Course delivered by  
Ceris Van De Vyver
